

List of Steam Experts per Country

The Steam Up consortium defines the criteria for a steam expert as follows:

- Education at the level of higher vocational education and a Bachelor of science degree or engineer or a demonstrable equivalent level of education.
- Experience in the field of energy saving in industries.
- Involved in work with at least 10 steam plants.
- Able to provide independent advice.

If you meet these requirements and want to be listed in the Steam Up Expert list, you can send your motivation and CV to eugenie.balde@rvo.nl
Your request will also be assessed by the Steam Up partner in your country

Co-funded by the Horizon2020 Programme of the European Union.
